GANESH LAUNDRY EQUIPMENTS

Ideas with Ideals Five Decades of Expertise Years of Excellence and Commitment

Established in the year 1958, M/s. Ganesh Engineering Works, are the leading manufacturers of high quality laundry equipment & boilers in India. We hold expertise in providing customized solutions for laundry equipment & bailers.

Having catered thousands of customers across India It is our belief that sales & after sales services are equally important in our business. It's our pride that a big share of our sales comes through referral enquiries. This itself is proof of our honest, trustworthy business & quality assurance which has been maintained sincerely since the last 6 decades.

Our humane approach towards our employees and their loyalty, commitment and passion toward work and the company has been mutually beneficial.

We always aim to bring world class products

Our mission is to continuously strive to provide quality products that satisfy Our customers as per their requirements.

We are committed to ensure that our customers have the highest satisfaction and greatest value for their cost through our products and customer services,

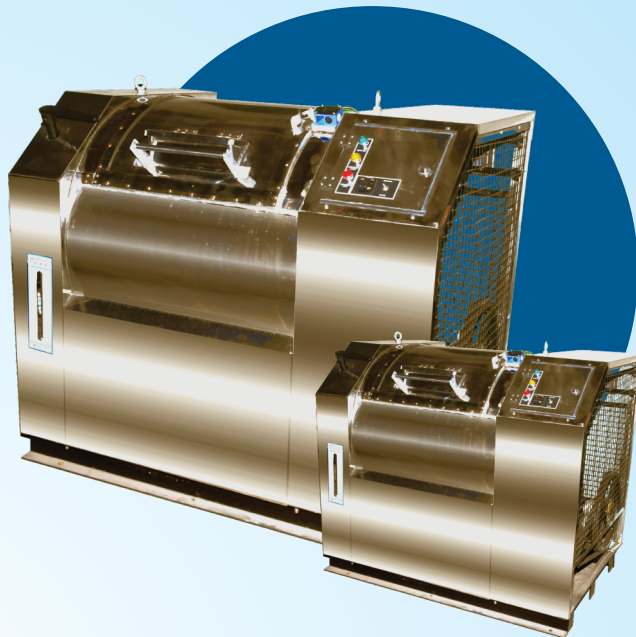

Our policy

In the present era of reputation and quality business, we are committed to provide efficient and durable machines with excellent quality, to our customers.

**To accomplish the target of quality maintenance,
we have three basic policies such as,**

- Purchase of Excellent Quality Raw Material.
- Continuous Improvement in Production Technology.
- Strict Quality control.

GANESH LAUNDRY EQUIPMENTS

WASHING MACHINES

Model	Capacity	Basket Size	Drive Motor	Dimension
GEW 15	10 kg	Ø600 x 530	0.37 kw	750 x 965 x 1200
GEW 25	20 kg	Ø813 x 530	0.75 kw	965 X 965 X 1450
GEW 40	25 kg	Ø813 x 730	0.75 kw	1016 X 1220 X 1525
GEW 60	40 kg	Ø875 x 850	1.5 kw	1016 X 1400 X 1800
GEW 90	55 kg	Ø875 x 1200	2.25 kw	1016 X 1650 X 1800
GEW 135	80 kg	Ø875 x 1810	3.75 kw	1016 X 2716 X 1981

HYDRO EXTRACTOS

Model	Capacity	Basket Size	Drive Motor	Dimension Overall Length
GEW 8	5 kg	Ø300 x 300	0.18 kw	750
GEW 15	7 kg	Ø381 x 250	0.75 kw	750
GEW 25	15 kg	Ø525 x 300	1.5 kw	900
GEW 40	25 kg	Ø650 x 350	3.75 kw	1000

WASHING EXTRACTORS

Model	Capacity	Basket Size	Drive Motor	Electric	Dimension (W X D X X)
GEW 15	15 kg	Ø750 X 350	3.75 KW	6 kw	1180 X 1060 X 1370
GEW 30	30 kg	Ø900 X 500	5.25 KW	12.18 kw	1400 X 1450 X 1820
GEW 45	45 kg	Ø1000 X 600	7.5 KW	12-18 kw	1325 X 1760 X 1900
GEW 60	60 kg	Ø1100 X 650	10 KW	8-36 kw	1610 X 1750 X 2000

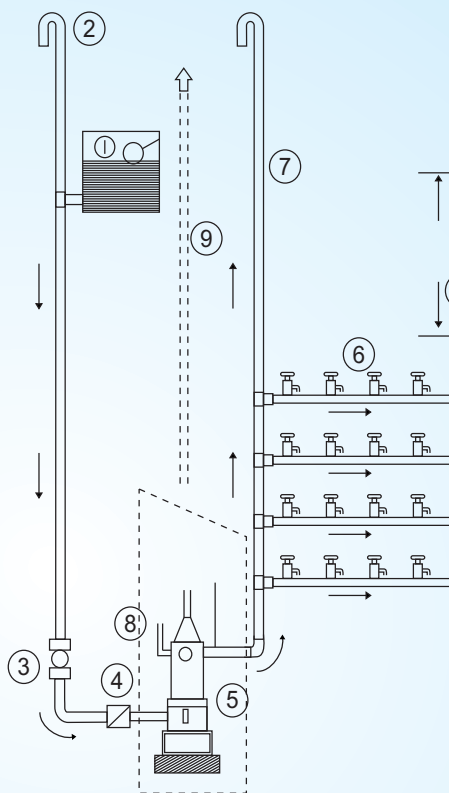

FLAT BED PRESS

Model	Head & Bed Size	Suction Blower	Steam Consumption	Electric	Air Connection	Electric	Dimension With Open Head
GEW 30	1500 x 750	0.37 kw	40 kg/hr (approx.)	9-12 kw	Ø 15	100lt./min. (Approx)	1600 x 1580 x 1900

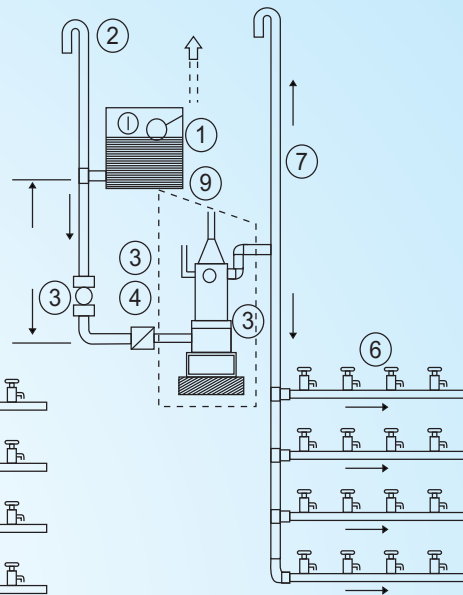

THE BEST HOT WATER BOILERS FOR THE BEST VALUE

TYPICAL UPFEED SYSTEM

TYPICAL DOWNFEED SYSTEM

- 1) Feed water tank
- 2) Cold water air vent outlet (approx 4 to 6 Feet above tank)
- 3) Gun metal gate valve
- 4) Non-return valve
- 5) Boiler
- 6) Hot water connection
- 7) Steam outlet open to sky (approx 4 to 6 feet above tank)
- 8) Optional hot water supply outlet
- 9) Additional chimney above the building

Note: Taps-3/8" to 1/2" Size Pipes-1" to 2" preferably C' class

HOT WATER BOILERS

Model	Capacity (No. of persons to take bath in an hour)	Suitable for Washing Machine (Model)	Model
D 5	25 to 30	GEW 25	2400
LB 3	20 to 25	-	3375
LB 4	30 to 35	GEW 40	3450
LB 5	40 to 45	GEW 60	3450
LB 6	55 to 60	GEW 90	3525
LB 7	65 to 75		3525
LB 8	95 to 105	GEW 125	3750
LB 9	110 to 120		3750
LB 10	130 to 150		4650
